Dayton, O., June 23.—Atlee Pomerene of Canton, in spite of his repeated statements that he was not a candidate for second place on the Democratic state ticket, was nominated for the lieutenant governorship on the second ballot. Three names were presented to the convention: Atlee Pomerene, Senator Daniel Mooney of Auglaize county, Charles W. Kempel of Summit county and George C. Beis of Sandusky county. The ballot resulted as follows: Pomerene, 510½; Kempel, 200; Beis, 84½.

Pomerene withdrew his name, but the convention shouted "No! No!" The chair announced that the convention should not vote for Pomerene, declaring his withdrawal was equivalent to a positive declaration. This had no effect on the delegates and Pomerene was nominated by acclamation on the second ballot. Cuyahoga started the ball for him by changing its vote, giving him 100 after it had first split its vote between Mooney and Kempel. Hamilton followed by changing its vote and giving Pomerene 129. The rest of the counties fell into line with a whoop.

Finally Accepted Honor.

Pomerene addressed the convention, saying he was not prepared to accept the nomination now, but would have to take time to consider it. Later in the afternoon Pomerene authorized John J. Lentz of Columbus, who was presiding, to notify the convention of his acceptance of the nomination.

Judge Morris Donahue of Perry county was nominated for supreme judge on the first ballot. The vote stood: Donahue, 891; James Johnson of Clark county, 502; J. Foster Wilkin of Tuscarawas county, 404; Edward Kibler of Licking county, 397. As two judges are to be nominated, a second ballot was taken to determine the nominee. Judge Johnson of Springfield, Clark county, was made the second nominee for supreme judge on the second ballot, receiving 602 votes.

Dean's Efforts Successful.

For secretary of state four names were presented to the convention: Charles H. Graves of Ottawa county, Edward F. Romer of Mercer county, John Henry Newman of Miami county and M. D. Shaw of Auglaize county. Graves was nominated on the second ballot, his success being due to the untiring efforts on the part of Senator Thomas Dean of Fremont.

## LITTLE HAS AGAIN BECOME MANAGER OF BLACK FIGHTER

(By Tap Wright)  
Johnson's Training Quarters, Seal Rock, San Francisco, June 23.—George Little is again Jack Johnson's manager. Figures of the settlement are not given, but it is understood of the local authorities. At the conclusion of the peace conference, Little declared he bore Johnson no ill will. "I have wasted large sums that he will win this night," he added, "and I am sure he will."

Johnson leaves here tonight for Reno. Little will accompany him, but Billy Delaney will not go. Johnson is taking a large supply of drinking water with him. Johnson will have to appear in court to answer to serious charges before he goes to Reno.

The black's arrest was thrilling, guns being drawn and threats made.

Johnson came into the city late yesterday to get Al Kaufman. On the Ocean boulevard his car sped along at 60 miles an hour. Mounted Policeman Lewis motioned Johnson to slow down.

ty, a deputy in the state treasurer's office, was nominated by acclamation for state school commissioner.

After the report of the resolutions committee had been adopted, the two Cuyahoga county members of the committee presented a minority report in which was incorporated the proposition to have the convention endorse a candidate for the United States senatorship. After a heated discussion the report was rejected by a vote of 584 to 254.

## DOUBLE CRIMES AT NORWALK

## PORTER CHARLTON ARRESTED ON BOARD PRINCESS IRENE CONFESSES TO WIFE'S MURDER

Hoboken, N. J., June 23.—Arrested on the North German Lloyd steamer, Princess Irene, from a Mediterranean port, which stopped here today, Porter Charlton, formerly of New York, confessed to the murder of his wife in their villa in Como, Italy. Ten minutes later at police headquarters, Charlton faced a loaded revolver in the hands of Captain Scott, U. S. Post Artillery, brother of the dead woman, who attempted to shoot him. Scott was disarmed.

The police were apprised by wireless that Charlton, registered as Jack Coleman, Omaha, Neb., was aboard the Irene.

Mrs. Charlton was murdered on either June 5 or 6 and her body stuffed into a trunk which was thrown into Lake Como and later found by fishermen. At first it was thought Charlton also had met with foul play.

The Charltons were married in Wilmington, Del., March 12. Charlton is 21 years old and his wife was 35. He is said to have been insanely jealous of her. Charlton says he killed his wife in a fit of anger after she had called him vile names. He offers no defense.

## TEDDY AN AUTO FIEND

Oyster Bay, N. Y., June 23.—It has taken ten years to accomplish it, but the victory is complete. His daily trips to New York are made in a machine and it is reported he is to buy several autos.

## PLATFORM ADOPTED BY OHIO DEMOCRATS

The Democratic party of Ohio, in the work so well begun, but we on the citizens to uphold him, electing his associates on the ticket and a Legislature that will help instead of hinder in eliminating graft, introducing business methods and reducing the cost of state institutions and departments.

We favor:

A maximum aggregate tax rate of 10 mills, without any right to increase it except by a vote of the people.

The fair and just regulation of all public utilities as well as railroads, with the right of home rule as franchises carefully guarded.

We favor the ratification of the income tax amendment of the Federal Constitution, which was ratified by the present Republican Legislature.

We demand the election of United States senators by direct vote of the people. To that end we pledge a Democratic Legislature to take the necessary action looking to a convention of the states to adopt the constitutional amendment required.

Pending the campaign for compliance with the people's demand, so long denied by a Republican Senate, we promise the enactment by a Democratic Legislature of a law so far that public sentiment will enforce it, providing for the nomination of Senators by popular vote at the regular elections in senatorial years.

## THRONGS VISIT THE BIG EXPO.

**Over 10,000 Visitors at  
Columbus Exposition

## LABOR IN CHARGE TODAY

**Retail Merchants Were the Boost-  
ers for Wednesday's  
Great Crowd.**

Columbus, June 23.—Crowds, aggregating almost 10,000, thronged the state fair grounds yesterday to attend the Columbus Industrial Exposition, and if the present rate of increase continues, it will be necessary to double the force of gatekeepers before the week is over.

Retail merchants of the city, by a special canvass, in which they said 5000 tickets good for yesterday only, materially aided in the success of the day.

An apparent scarcity of street cars in service to the exposition grounds caused numerous complaints last night. The insufficient number of cars supplied were heavily burdened with passengers hanging to every handle and projection. Steps will be urged upon the street car company to avoid a repetition of the lack of service.

Federated labor holds the boards at the industrial exposition today and the speaker of the evening will be J. M. Lynch, of Indianapolis, president of the International Typographical Union. Labor is expected to turn out en masse, particularly in the evening.

Columbus people, old and young, are coming to know that the exposition grounds constitute a comfortable and cool place in which to spend the afternoon and evening, and increasing crowds doubtless will be drawn there from the social attraction alone. Neddermeyer's big brass band of 60 pieces, which gives two concerts daily, one in the afternoon and the other in the evening, for both of which seats are free, affords an attraction that has a distinct appeal apart from those exercised by the booths and exhibits.

While the downtown streets are sweltering hot, a bright fresh breeze begins to blow across the grounds in the afternoon, making them cool and comfortable all the time. Exhibits are open until 10:30 in the evening and the lights are on until 11 p. m. The grounds open at 10 o'clock in the morning.

Yesterday afternoon was given over to the county societies of the Tenth and Eleventh districts and the evening to retail merchants.

merchants' committee of the chamber of commerce, organized his forces, and canvassed the city to boost yesterday's attendance. The campaign was along the idea of education, to show merchants and their employees what the city had to boast of and what the opposition had to offer, convinced that everyone who went would become a booster for the remainder of the days of the exposition.

Many firms bought largely of the special tickets and supplied them to their clerks. Among the larger orders were: P. & R. Lazarus, 250; Home Dry Goods Company, 200; Columbus Dry Goods Company, 150; Krauss, Butler & Benham, 100; the Dunne-Taft Co., 150; Max Rieser, 75, and many others in lesser proportion. Rieser ordered a special supper served on the grounds to all his employees, who left the store immediately at the close of business. The Krauss, Butler & Benham Company chartered special cars to take their men and women to and from the grounds, as did North Side merchants. Many of the firms had special badges and ribbons.

## QUARREL

Resulted in Colored Boys Killing the Young Son of Their Employer While Out Gunning.

Georgetown, Del., June 23.—Henry Williams and James Sharp, colored boys from Philadelphia, working on the farm of Wilmore Rogers, near here, shot and killed their employer's 13-year-old son John after a quarrel, while the boys were out gunning yesterday afternoon.

After an all-night search for the missing lad, aided by the two slayers, the body was found in a field by a posse this morning.

The negroes confessed the killing, each accusing the other of doing the actual shooting. So enraged were the farmers that threats of lynching were made. Williams, who is suspected of being the real slayer, was spirited away by a brother of the murdered boy and brought to the Georgetown jail. A state detective followed with the other boy.

## TAWARTED IN LOVE

**Woman Dead from Bullet Wound  
But Man Is Still Alive After  
Strenuous Attempt.**

Birmingham, Ala., June 23.—Mrs. W. P. Harding, wife of the president of the First National Bank of Birmingham, committed suicide last evening at 5 o'clock by shooting herself with a pistol.

Thirty minutes later Guy Johnson, one of the most prominent men in Birmingham, attempted suicide by taking poison and snuffing himself.

Johnson is general manager of the Alabama Consolidated Coal and Iron Company.

The double tragedy is the greatest sensation that has occurred in Birmingham for a long time. Mr. Harding has been in New York City for the past week. He sailed for home by way of Savannah, Ga., at three o'clock yesterday afternoon. He had scarcely cleared the New York harbor when his wife ended her life in their beautiful home here at Glen Iris, a resident suburb of Birmingham.

It is reported that Johnson and Mrs. Harding are old sweethearts and that Mrs. Harding's parents compelled her to marry Mr. Harding against her will. It is believed that a compact to end life existed between the two, and that for some unexplained reason they failed to carry it out at the same moment.

Mrs. Harding was Miss Amanda Moore, and her father's family came to Birmingham from Etowah, Ala. Mrs. Harding was the society queen of Birmingham. She was a charming hostess and on account of the great wealth of the Harding family she was the principal entertainer and society belle of the city. She was regarded as the most beautiful woman in Alabama and is the mother of 13 daughters, of whom the eldest, 13 years of age, the eldest daughter, Elizabeth, is now with her father on board the steamer that is bringing them from New York.

The two younger girls were visiting some of their girl friends, and did not return home until 9 o'clock last evening. Unconscious of what had happened, they romped playfully into the house and ran upstairs, laughing and talking.

Little did they know that in the next room to theirs lay their mother, cold and loveless in death. The little girls were taken in care by some lady friends of the family, and were not told of the horrible news.

Johnson is still alive and is lying at his home in Froquois street, surrounded by physicians, who are making every effort to save him. He is in an unconscious state.

Neither Mrs. Harding nor Mr. Johnson left any note or other explanation.

Mrs. Harding was found by her negro mammy, Marial, who had watched over her since she was born. The mammy heard the report of the revolver, and when she went to her lady's room she was met with the horrifying spectacle of the woman she had nursed from babyhood lying on the floor, breathing her last.

paired to the home of the bride's parents where an elaborate five course wedding dinner was served. Here the decorations were in green and white, effected with roses, asparagus ferns and other greenery. The bride's table was a picture of loveliness. The chandelier was entwined with smilax and from it to the corners of the table extended white ribbons and strands of smilax. A huge pyramid of white roses and white lilies occupied the center of the table and the candles shaded with green illuminated the scene. Place cards, hand-painted by Miss Helen Banton, with white roses and green vines sealed the following. Dr. and Mrs. C. B. Keller, Misses Bernice Brown, Daisy Taylor, Margaret Webber, Lillian and Edith Keller, Messrs. Ralph Keller, Bert Horton, Howard B. Miller, Misses Marguerite Dunn and Doris Avery and Mr. and Mrs. Eugene Hartshorn. The remainder of the guests were seated at small tables throughout the rooms.

Dr. and Mrs. Keller are two of Newark's best known young people and they have the congratulations of a host of friends, who at this most important time in their lives remembered them with many beautiful and exquisite gifts. They left at one o'clock for a two weeks' trip up the Great Lakes and upon their return will take up their residence with the bride's parents. ## Why Are Old Maids Not Married?

A request has come asking for an article on "Why Are Old Maids Not Married?" This is somewhat of a poser. Probably every "old maid" (the term belongs to the last century, not the present one) has her individual reason for not having married, and it would be difficult to classify these reasons under any specific heads.

The usual unthinking reason why old maids are not married is that they never had the opportunity. But this is truly an expression of opinion from those who do not think. I have known some pretty hard cases from the point of looks, style and accomplishments, and these are considered the marrying points, who have had not only one, but several opportunities of marrying, and I do not believe there is one unmarried woman in this country, unless she is of unsound mind or terribly deformed in some way, who couldn't have married if she would. It is true that in the much talked-of play, "A Man's World," one of the principal characters says she is not married because no man has ever asked her. But she very evidently says this to make a point for a certain argument in the play.

Men as a rule, have the impression that every woman wants to marry. But such is not the case. Many women, particularly today, analyze married life most critically. She studies herself and her desires in life and she sees she would not be as happy married as single. Consequently she deliberately makes up her mind to remain single.

Many a woman desires to find an outlet for her abilities in some certain line of work or in some profession. Married life as it is usually

the bride of Mr. Herbert Lee Baker, son of Mr. and Mrs. Henry Baker of 332 West Main street and who holds a position in the power house at the Wehrle Company.

Rev. J. A. Bennett, pastor of the bride, read the service in the presence of only the immediate families. The brides were profusely adorned with palms, ferns and red roses and the bride was tied under an arch of the chosen decorations. The young couple were unattended. Miss Sanford made a charming bride, dressed in a beautiful Swiss embroidery robe with white satin grille and she carried a shower of Bride's roses.

Following the ceremony a wedding dinner was served at the bride's home and guests were seated at one large table which was prettily decorated with pink roses and ferns. Here dainty place cards seated the following: Mr. and Mrs. Herbert L. Baker, Miss Vera De Jones, Mr. J. A. Bennett, Mr. and Mrs. J. A. Bennett, Mr. and Mrs. A. J. Sanford, Mr. and Mrs. Henry Baker, Misses Edna, Lillian, Bertha, Mona, Ethel, Dennis, Maude, Sanford, Gladys Bessie and Lottie Baker, Helen Sanford, Miss Eliza M. Sanford, of Attica, Ohio, and Miss Isabel Knight of Washington Pa.

Both Mr. and Mrs. Baker are popular young people of this city and have the congratulations of a host of friends. The bride is a graduate of the Newark High school in the class of '08, and has been teaching in the Woodside school. The happy couple left at once for their cozy home, No. 9 Fulton avenue which they had previously furnished and where they are now at home to their friends.

The marriage of Miss Faith Kinard Roe of this city, and Mr. Edward M. Downer Jr. of Pueblo, Col., will occur this afternoon at four o'clock at the home of the bride's parents, Mr. and Mrs. Eli Hull in West Main street. Rev. Harry J. Holcomb, assisted by Rev. H. S. Bailey of Zanesville, officiating.

Mrs. T. M. Jones of East Main street was hostess on Wednesday to the members of the Wednesday Bridge club and at the close of an interesting game in which three tables of players participated, the first prize was captured by Mrs. Charles Gillette, the second by Mrs. Helen Franklin, and the booty by Mrs. George Blood.

Worth \$20,000, Which Had Been

Hay Loft.

Washington, June 23.—Concealed in a rusty old tin can in the empty hay loft of a livery stable, detectives found jewelry worth \$20,000, which was stolen March 1.

The jewels belong to Mrs. Isham Hornsby, prominent in army circles here. They were stolen by a former servant of the household, who had been arrested three times previously on suspicion of the crime, but against whom no proof could be obtained. Yesterday he tried to sell an uncut stone, which was recognized as one of the Hornsby diamonds, and when arrested he confessed and revealed where he had hidden the jewels.

## THIS MAY HELP COOL YOU

With the mercury hovering around the 100 degree mark it's hard to remember that the weather was ever cool in Newark. Glance at this picture and perhaps it will help cool you off. It's a reproduction of a photograph of North Fourth street in front of the Central fire department showing the huge snow piles after one of the snow storms here last February. The snow was shoveled off the sidewalk into the street and was later carted away.

**HARMON BOOM LAUNCHED.**

We invite the attention of the nation to Judson Harmon and the work he is doing for Ohio. Two years hence it will have been completed, then we can spare him for larger duties. He believes that guilt is personal—is acting on that belief at home and would act upon it in larger fields. A high sense of duty provides his only motives for official actions, and his sense of justice alone compels judgment. Firmness and strength mark him the man to supplement vacillation and weakness. The nation needs a real man, and the Ohio Democracy here presents and indorses for the Presidency in 1912, Judson Harmon—Resolution Adopted by Democracy of Ohio in convention at Dayton.

**Edward Kibler's Creditable Showing At the Convention**

While Licking county's candidate for Supreme Judge, Hon. Edward Kibler of Newark, failed to land, Mr. Kibler and his friends have the satisfaction of knowing that it was no fault of theirs that the nomination failed to come to Newark. A gentleman of years of valuable political experience and labor for the Democratic party stated that never in his experience had he seen such effective personal work for any candidate as that made by the Licking County delegation for Mr. Kibler. Every delegate and every visitor from Licking county submerged his own personality, and utterly forgotful of the moral heat, worked from early morning until late at night in the interest of Licking county's candidate. Attorneys Rodger Jones and J. Howard Jones were the first from Licking county to be on the ground, and from the moment they landed in Dayton they were in evidence working in the interest of our candidate, so that when the remainder of the delegation arrived they had acquired a good line on the situation. The delegation, on its arrival in Dayton, went into caucus and laid its plans, and from that time until the close of the convention there was not a moment but each and every delegate worked in favor of Licking

**GREATEST GATHERING IN OHIO'S HISTORY**

Such was the Dayton Democratic State Convention. Not merely in the numbers present, but in the composition of a great body of political thinkers and active workers who have become thoroughly avowed in a great cause.

That was the character of the gathering of Ohio Democrats at the Ohio City on Tuesday and Wednesday.

The cause for which such a gathering was assembled could not be otherwise than that of a great political reform. That was what the assembly of class delegates and the thousands of other Democrats in attendance were at Dayton for.

This reform cause, as all the intelligent people of Ohio know, is represented and promoted by Governor Judson Harmon, not only one of the greatest Chief Executives in the State's history, but a central figure in the county's popular candidate for Supreme Judge. Mr. Kibler was placed in nomination by Hon. J. R. Fitzgibbon of this city, in a short but neat and effective speech, in which he painted in glowing colors the capabilities and worth of Mr. Kibler as a lawyer and as a man who would grace the bench of the Supreme Court of Ohio.

Judge Maurice Donahue of Perry county was nominated on the first ballot for one of the party's nominees for Supreme Judge, and the fight was then between Kibler, Johnson and Wilkin. It becoming apparent that Kibler and Wilkin were antagonizing one another, splitting the vote of the Seventeenth district, it was decided that one of them should retire in favor of the other. A coin was tossed and Mr. Wilkin won. Hon. W. A. Ashbrook, who did most efficient work in the interest of Mr. Kibler, then withdrew Mr. Kibler's name as a candidate in favor of Mr. Wilkin. Mr. Kibler received 287 votes on the first ballot. In view of all the circumstances, he made a creditable showing and one of which he and his friends are proud.

**AT PUBLIC EXPENSE**  
Ho, ho! another cat slipped out of the bag through recent reports from Washington. That howling speech of Congressman Howland about free wool and free trade and the high price of farm products, and other speeches which, Washington dispatches say, "revel Ohio Republican representatives got into the Record" that were "intended primarily for political consumption," are to be used in Ohio this year as campaign documents.

Through the use and abuse of the franking privilege political speeches of this kind are made in congress by m. c. congressmen, for the purpose of having the state flooded with free of expense to the state g. o. p. committee. This abuse of the franking privilege by g. o. p. politicians enables them to make a machine to flood the state with poisoned political literature at the expense of the people. When any of these speeches come to your house in big envelopes bearing the signature of some g. o. p. congressman and without a postage stamp you will know that Uncle Sam's moral debt, which seemed to worry President Taft some months ago, is ruthlessly increased at the expense of the people in order to give g. o. p. campaign committees a large drain upon their campaign funds. Although the howling Congressman Howland of Cleveland set up an awful howl in congress about free wool and free trade, he was conspicuously silent about free postage for g. o. p. campaign documents.

**HERRICK REDIVIVUS.**

A revival of the Herrick boom for the g. o. p. nomination for governor is announced in one Republican paper as the logical way to break the Cox-Burton combination. "Herrick is the man to keep out Cox," says the aforementioned innocent and unsuspecting Republican paper, and then added that if Herrick were nominated the Cincinnati boss would be eliminated as an issue in the campaign.

Not so long as the "electric mule" browses along the banks of the Miami and Erie canal.

By all means bring on "Colonel" Herrick as the g. o. p. candidate for governor.

**HARMON STARTED IT.**

"A Republican prosecutor of Franklin county sent Mark Slater to prison," says a Republican paper. Not while Uncle Andy Harris was governor, nor yet while "Colonel" Myron Herrick was governor.

The people of Ohio know who it was who pushed the Republican attorney general into pushing the Republican prosecutor of Franklin county into pushing Mark Slater—and there are more yet to be pushed, providing Governor Harmon is given two more years in the governor's office to do the pushing.

**HE KNOWS.**

In all their frantic reiterations of the question, "What has Harmon done?" the g. o. p. bosses have not yet mustered an sufficient courage to ask Uncle Andy Harris.

**TERRIBLE SORES.**

No Matter How Chronic, W. A. Erman & Son Guarantee San Cura Ointment to Give Instant and Permanent Relief. "My daughter was troubled for over a year with a fever sore on her leg, and was helpless in bed for three months. To the great surprise of all, including the four doctors who had attended her, San Cura Ointment healed the great sore in less than six weeks."—J. D. Hood, Townsville, Pa.

The case of Miss Hood is only one in a thousand. No remedy ever compounded has ever produced the marvelous cures that can be attributed to San Cura. Karl C. Banks, of the Atlantic Refining Co., of Pittsburgh, had a sore on his ankle for a year. He despaired, and tried various remedies, without relief. He says: "San Cura Ointment worked like a charm, reduced the swelling and healed the sore in two weeks." If any reader of the Advocate knows of any one suffering from terrible sores, it is his duty to tell them of the wonderful healing, healing and anti-septic virtues of San Cura Ointment. It draws the poison from the sore, no matter how deep seated. But bear in mind, dear reader, that besides sores, San Cura Ointment is guaranteed to cure eczema, boils, carbuncles, salt rheum, tetter, also itching, bleeding and protruding piles. In cases of burns, scalds, cuts and bruises, nothing kills the pain and removes all germs and draws out the foreign matter like San Cura. The price is only 25c. and 50c. a jar and W. A. Erman & Son guarantee it.

**COMPLEXION SOAP.**

If you want a lovely complexion, with soft, velvety skin, free from pimples and blackheads, use San Cura Soap, the great antiseptic and skin purifier. 25 cents a large cake at W. A. Erman & Son's. Mail orders for San Cura Ointment and Soap filled by Thompson Medical Co., Titusville, Pa.

Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. **STARTS OUT ON LONG SPEECH**

Washington, June 23. — Senator Burton, of Ohio, this morning began a filibustering speech against the bill to create mountain forest reserves, which he proposed to make cover the two remaining days of this session of congress. On the other hand, Representative Weeks, of Massachusetts, is determined to have the measure passed, and with one filibustering for and the other against the bill, the result is in doubt.

**CONGRESS IN A RUSH FINISH.**

**Why Everybody Should Feel Happy at Result.**

**TAFT GETS WHOLE PROGRAM.**

Knox Case Indicates There Will Be No Cabinet Changes—No Ballinger Report Before Adjournment—Why Congress Refused to Dispense With Pork.

Washington, June 23.—Roosevelt is home to stay, and congress will go home in a few days, many of the members to stay. The railroad bill is a law, the statehood bill is a law and the other bills are becoming laws as fast as debate can be stult and the president can work his signing arm. Taken all in all, it has been a notable session, and the wrapup is proving more satisfactory to all concerned than anybody hoped for in the beginning. The president is pleased that he is getting such a large part of his program. The insurgents are pleased because they succeeded in modifying the house rules and in materially amending the railroad bill. The regulars are pleased because it is no worse and because they think the tide is turning their way. The Democrats are pleased because they shared in the insurgents' victory over the house rules and because they hope to carry the next congress. And the American people are pleased that congress is so nearly through. If that does not make a pleasing finish how could one be contrived? Perhaps Uncle Joe Cannon is not entirely joyous, but he ought to be for the reason that he was not thrown out of office.

**Knox Sticks to Ship.**  
By remaining in the cabinet at the president's request and by declining to become a candidate for governor of Pennsylvania Secretary Knox has quieted all rumors of cabinet changes, at least for the time being. Nobody knows, of course, when the enterprising reporters may pull off another weird tale of an impending shakeup, which continues to impend, but never arrives—but this ought to hold them for awhile.

**Ballinger Report May Go Over.**  
Chairman Nelson of the Ballinger investigating committee says he does not see how a report can be made before the adjournment of congress. Does that mean that it will be held off till after election? This would be the natural inference unless the committee intends to meet during the recess and to publish its findings in advance of their delivery to the two houses. In the meanwhile practically all of the Ballinger opponents are being fired out of their jobs. In effect they are being sentenced before the jury hands in its verdict.

**The Reward of Parr.**  
The president and secretary of the treasury have decided to reward Richard Parr in the sum of \$100,000 for his exposure of the sugar weighing frauds. As the amounts recovered have gone above \$3,600,000, Parr was entitled, according to one construction of the law, to claim 50 per cent, or more than \$1,700,000. As there is not sufficient money in the reward fund to pay the \$100,000 congress will probably have to be asked to make a special appropriation, but this will not be done during the present session. Parr testified that he was dogged by detectives and offered money bribes to stop his work, one of the bribes talked of being \$100,000.

**They Need the Bacon.**  
For years the rivers and harbors bill and the public buildings bill have been known as the "pork" measures of congress. This year President Taft urged that the rivers and harbors bill be framed along the lines of a declared national policy, a suggestion that congress did not take to any alarming extent. He also insisted recently that the public buildings bill be held down to buildings actually needed and estimated that it should not go above \$20,000,000 in all. The members regard this as nothing less than cruel. What can a statesman who wants to continue statesmanship do without pork?

**Five Millions For Panama Locks.**  
One of the most gigantic engineering features of the Panama canal will be the great locks to be at three different points—ten at Gatun, six at Pedro Miguel and seven at Miraflores. The largest will be eighty-two feet high, and all will be sixty-five feet wide. Bids have been opened by the isthmian canal commission for furnishing the material and building these locks, which will require about 60,000 tons of steel. The lowest bid was submitted by the McClintock-Marshall Construction company of Pittsburgh for \$3,374,474.

**Demand For Small Bills.**  
The treasury department has taken steps to increase the supply of small bills, for which there always is a heavy demand during the last months of the year. Especially is this the case with the one dollar and two dollar denominations, their issue legally being limited to the silver certificates. Country banks and those in the communities where business is not large especially require the smaller currency, and it is with difficulty that the treasury is able to meet the demand. There also is a shortage of five dollar bills.

**Women's Secrets**

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. ## OIL WELL

Claimed to Be the Largest in the World Will Be Shown in Moving Picture Theaters.

San Francisco, Cal., June 22.—The greatest oil well in the world, the famous Lakeview geyser, in the Maricopa field of Central California, which has been spouting liquid fuel at the rate of 10,000 barrels a day since March 15, soon will be flashed on the screens of thousands of theaters and playhouses throughout the world.

Recently representatives of a moving picture concern photographed the great geyser. Employees were shown at work, and to make the scenes resemble the early days of the spouter as much as possible, lot of rubber coats and appliances with which the army of men fought the big well for days and days, were brought into requisition and much life was thrown into the scenes.

Exposures of the remarkable petroleum geyser were taken on hundreds of feet of film. The sumo holes, dozens of running oil, pumping plants, bucket stations, and in fact, everything about the property was brought into the pictures.

The display of these remarkable views of the greatest oil well in the history of the world will be the biggest advertisement the California oil industry, which is now attracting the attention of the whole world, has ever received.

### MORE AUTO RECORDS SMASHED YESTERDAY

St. Paul, June 22.—Three world's auto records were broken at the Twin City aviation meet at the state fair grounds yesterday afternoon. Barnes, of Illinois, lowered the one mile and two mile records for a single car, and Barker set a new world's mark for the three mile on a circular track. Gilford, driving a two engine power boat, broke the 100 mile record, and made the first in 49 minutes and 45 seconds. The record was held by a two engine boat, which made the same distance in 50 minutes and 15 seconds.

Kearney, driving a single engine car, broke the 100 mile record, and made the first in 49 minutes and 45 seconds. The record was held by a two engine boat, which made the same distance in 50 minutes and 15 seconds.

## CLAIMS UNITED STATES IS FACING MOST SERIOUS CRISIS IN ITS HISTORY

St. Paul, June 22.—That the United States is facing the most serious crisis in its history, was the declaration of W. C. Brown, president of the New York Central system, in a sensational address delivered today at the 21st annual convention of the Minnesota State Bankers' Association.

He declared that the food consumption of the nation is rapidly exceeding the production. That the gold supply is increasing so that its purchasing power is being materially reduced, and that the development of the farms of the country is now the most imperative problem before the nation.

"If the converging lines of production and consumption in the United States continue to approach each other as they have during the last ten years," he said, "before the middle of the decade upon which we have just entered has been reached, the last vessel loaded with agricultural products of this country will have left our shores, the great grain exporting elevators in our seaport cities will stand empty and this great nation, like those of the old world, will be looking with anxious eyes for a place to buy the necessities of life."

"It does not need the experience of a railroad man to know that with one train representing production, running at the rate of 26 miles per hour, followed by another train representing consumption, running at the rate of 60 miles an hour, either the leading train must speed up, the following train slow down, or disaster is only a question of time."

"We are building great battle-ships, two of them a year, costing \$10,000,000 each and \$1,000,000 a year to maintain them, and I wish that the money expended in building just one battleship could be devoted to improving intelligent agriculture."
